Let's actually create a Notebook now!

Creating a Notebook

Now that you know how to start a Noteb
document.

All you need to do is click on the *New* bu
happen to have Python 2 and Python 3 installed, so I can create a Notebook that uses either of these. For simplicity's
sake, let's choose Python 3.

Your web page should now look like this:

Naming

You will notice that at the top of the page is the word *Untitled*. This is the title for the page and the name of your
Notebook. Since that isn't a very descriptive name, let's change it!

Just move your mouse over the word *Untitled* and click on the text. You should now see an in-browser dialog titled
Rename Notebook. Let's rename this one to *Hello Jupyter*:
